Projects

The student Life improves every year your living conditions. The next projects are in the coming years :

- > A space studying to the IUT of Vélizy with the rehabilitation of formerprefabricated and the installation of a table football
- > a Bike campus on the site of Saint-Quentin-en-Yvelines to move of sites in sites daily or for more long-lasting one
- > a House of the student on the site of Guyancourt, with an associative space, a theater, a multi-purpose hall.

Spaces

Are you stressed? Would you like a comfortable space to have a relaxing break between classes or before going to work at the BU? Or would you like to spend some time in a friendly atmosphere with your friends? Everything is possible thanks to the two places of relaxation; one on the loft floor in the Vauban building in Saint-Quentin-en-Yvelines and the second in the Buffon building in Versailles.

You will find: Sofas, coffee tables, designer chairs that are very comfortable, sockets to connect your laptop into, noise cancelation walls so you can read the books that we put at your disposal or to work completely in peace. You can also borrow board games and card games to spend good times with your friends. Student life has everything for pleasant moments in a warm atmosphere.

At Versailles, student space is divided into :

- A space to eat warm food a high bar, coffee machines and a microwave.
- A space dedicated for relaxation where you will be able to enjoy new sofas.
- A space to watch films, play video games...
- A space where you will have access to computer stations and all the information on Student life.

You will also find - in the two sites - a place dedicated to the evening workshops of Student life. You will also be able to participate in our artistic and creative activities. Everything is possible with the new student space! It only needs you!

Do not forget before you go to leave this space as it was and clean.

Step by step, all the components will be equipped with a fitted out space. Next stage : the IUT of Vélizy.
